DETAILED ACTION

Election/Restrictions

Acknowledgment is made of Applicant's cancellation of Claims 29-30.

Applicant's election with traverse of Group I, Claims 1-15, on September 22, 2003 is acknowledged. Upon further review of the previous Office action, the Office has reconstructed the restriction requirement to better clarify the separate and distinct embodiments of the claimed invention, as set forth below:

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-23 and 26, drawn to a first method of making a product comprising recited steps a) - c), a first product, and a first method of using a first product for the treatment of tissue regeneration disorders of the skin and/or superficial body growths

Group II, claim 24, drawn to a second method of using a product for the treatment of disorders of the skin and/or superficial body growths related to aging.

Group III, claim 25, drawn to a third method of using a product for the treatment of inflammatory skin manifestations.

Group IV, claim 27, drawn to fourth method of using a product for cosmetic treatment for tissue regeneration of the skin and/or superficial body growths.

Group V, claim 28, drawn to fifth method of using a product for the cosmetic treatment of modifications related to aging of the skin and/or superficial body growths.

1. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Applicant is reminded that under PCT Rule, Applicant is allowed one method of making a product, one method of using a product, and one product for prosecution on the merits. As drafted, the pending claims fail to comply with PCT Rules. Applicant is required to elect a single invention for prosecution on the merits, *i.e.*, a first method of making a first product, and a first method of using a first product.

A telephone call was made to Steve Laut on October 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
